

Introducing the New **Spellex Medical 2005 & Spellex Pharmaceutical 2005**

The Latest Medical Words...
at your fingertips!

**UK
Edition**

Accuracy and productivity are on everyone's mind in the healthcare field. Since 1988, thousands of your colleagues have relied on Spellex for the most accurate, comprehensive, and up-to-date medical and pharmaceutical terminology available anywhere.

Within seconds, Spellex solves the frustration of having a spell checker which does not include the very latest medical and pharmaceutical terms right where you need them most... at your fingertips.

Medical Spelling Power

The new **Spellex Medical 2005** correctly spells medical procedures, diseases, treatments, surgical terms, medical slang, lab tests, thousands of drug names, brief word forms, medical devices, eponyms, acronyms, instrumentation, abbreviations, and more.

Now covering over 70 medical specialties and subspecialties, **Spellex Medical 2005** includes anatomy, anaesthesiology, bacteriology, cardiology, gastroenterology, haematology, immunology, internal medicine, neurology, nursing, oncology, ophthalmology, pathology, psychiatry, radiology, urology and virology, **to name only a few.**

Pharmaceutical Spelling Power

The new **Spellex Pharmaceutical 2005** includes hundreds of OTC and prescription pharmaceuticals including generic and trade name drugs, investigational drugs, chemotherapy drugs, orphan drugs, drug protocols, manufacturers, distributors, labellers and much more.

Covers extensive pharmacologic - therapeutic classifications including anaesthetics, antihistamine drugs, anti-infective agents, antineoplastic agents, autonomic drugs, cardiovascular drugs, central nervous system agents, dental agents, diagnostic agents, enzymes, gastrointestinal drugs, hormones, oxytocics, serums, vaccines, vitamins and more.

If you've ever tried to spell check words like **erythematoadematous**, **thymohydroquinone**, **sacculoutricular**, **Zyflamend** or thousands of other medical or pharmaceutical words, you know your basic spell checker or even a standard medical speller doesn't include critical terms needed by professionals who work with healthcare terminology.

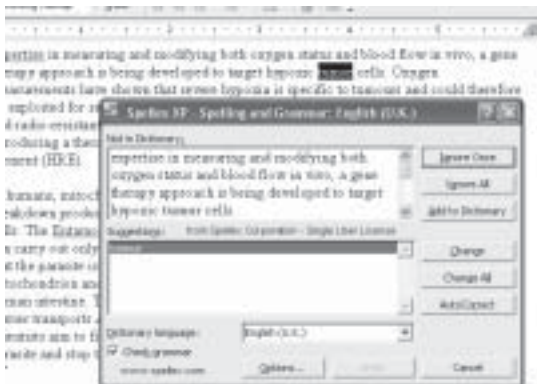

With Spellex, you can quickly and easily solve this problem by adding hundreds of thousands of correctly spelt medical and pharmaceutical words to your favourite program's spelling dictionary. No more struggling with a spell checker which doesn't include many of today's newest words. No more stopping to add words to your speller. **And no more embarrassing (and potentially libellous) spelling errors.**

Keep Up To Date with Spell-X-Plus™

Healthcare professionals know that new medical terms are introduced DAILY – new diagnostic procedures, new instruments, new medications, new equipment, new techniques, new research terms, new laboratory tests, new clinical drug trials... the list goes on and on! Many of these terms won't be found in your favourite medical references or medical spellers for years – if at all.

With the SPELL-X-PLUS quarterly software update service, you can easily keep your Spellex spell checker up to date with the newest words in medicine.

Simple To Install... and Use.

Spellex specialty spellers work inside your Microsoft® or WordPerfect® spell checker... exactly like your current spell checker, so there's nothing new to learn! No new commands to remember. And no manuals to read. Just type "Setup" and Spellex does the rest.

Assists with Unsure Spelling.

Not sure how to spell a word? Simply type the word the way you think it might be spelt and get a list of all similarly spelt choices. Spellex checks both your regular English words and your medical and pharmaceutical words simultaneously. Replace misspelt words with a single mouse click, too.

Why Spellex?

Spellex brings you the most definitive, up-to-date and essential terms from the world's most respected reference sources. You no longer have to rely on only one book publisher's paper or electronic dictionary. Spellex unconditionally guarantees you the most accurate, comprehensive and up-to-date spelling dictionary... at the best value.

The Spellex Guarantee!

Try Spellex software without risk or obligation for up to 30 days. If for any reason whatsoever you are not delighted, simply call us for a full refund.

What Customers Say About Spellex!

"I am completely satisfied with the information. And your advertising was correct... it is far in advance of the current PDR and medical dictionary."

– Karelin Sammann, PKdesign

"It paid for itself in time savings within the first two weeks. I'd recommend it to anyone needing accuracy AND speed."

– L. Moore, VA Hospital

"It's amazing how much easier doing a transcription from dictation is with Spellex on the computer. It helps me find correct spelling in seconds."

– Katherine Mabel
